El Dorado County Building Department Plan Review Submittal Process

DATE ISSUED: June 28, 2021

To improve and streamline the plan review submittal and inspection process for the building community in El Dorado County, the El Dorado County Building Department and the Meeks Bay Fire Protection District have been working together on a revised MOU.

As a result, effective July 1, 2021, the Meeks Bay Fire Protection District will be taking over responsibility for plan review and inspections for the following:

- Automatic Fire Sprinkler Systems and Associated Inspections
- Liquid Petroleum Gas Systems Plan Reviews and Associated Inspections
- Vegetation Management Compliance
- Address Identification

Plan reviews and inspections processed through the El Dorado County Building Department prior to July 1, 2021, will need to be finalized by the El Dorado County Building Department.

Thank you for your patience while we work through this transition period. El Dorado County Building Department staff and MBFPD staff will be available to answer questions regarding these changes.

NTFPD/MBFPD Plan Review Applications, Cost Recovery Schedule, Electronic Plan Review Submittal Process, and additional resources can be found [here](#).
